Each Packet has about 25 or more seeds and is \$1.49 each unless indicated otherwise

Check back often as we update our seed offerings.

All packets are \$1.49 each, unless indicated otherwise.

Please add \$2.75 shipping to all orders

The Yellow 1884 Tomato

85 days, Indeterminate, regular leaf. Developed by the late Darrell Merrill, The Tomato Man of Tulsa, OK. From a sport of The 1884 Tomato. Originally called Yellow 1884 Pinkheart, ours mostly produces pure yellow fruit. Sometimes a pink heart in the middle of the tomatoes, but sporadically. A great tasting /low acid yellow, with outstanding production.

Black Apple

A Nice black (type) tomato, with 4-6 ounce fruits that have an interesting apple shape.. Rich, flavor, typical to the black types. Fruits are juicy but meaty. Prolific producer,

Black Cherry

(1 oz.) This is the blackest of the cherry tomatoes. It has the typical rich tomato flavor of the black varieties. 65 days.

Black Giant

70 days, Indeterminate., regular leaf, a favorite black tomato with outstanding flavor, some concentric cracking on most of the 6-10 oz. tomatoes, but has excellent flavor. Makes it worth while

Black Krim

80 days, indeterminate, A superior Russian tomato, 6-8 oz. fruit with great flavor, purple-black color with green shoulders. An excellent black tomato from Crimea.

Black Zebra

4 oz.) This is a juicy tomato with a rich, well balanced flavor. the fruit is 1 1/2-3" in diameter with fantastic coloring. The skin is mahogany with green stripes and the interior is deep burgundy. Black Zebra is a good home garden and farm market variety. 75 days.

Bloesser Pink

90 days, Indeterminate., regular leaf plant. This Virginia Mennonite heirloom has excellent flavor and good production of 12-18 oz. pink fruit.

Bloody Butcher

This potato leafed variety was our first tomato to ripen. It can ripen in as little as 55 days. Not a big tomato but was very flavorful. 1 to 3 ounce salad type fruit that closely resembles the variety Stupice. Deep dark red color. For those that "Must" have the first ripe tomatoes on the block

Burgunday Traveler

80 days, Indeterminate., regular leaf, 6-12 oz dusty rose-pink globes, no cracks. Nice looking tomato with excellent flavor. Good yields.

Cherokee Purple

(6-12 oz.) Slicer type heirloom. Dusky pink-purple with darker shoulders. Mild rich flavor. Very Popular 80 days

Chocolate Stripes

This mahogany-red tomato has olive-green stripes and excellent tomato flavor. The fruits are 3 to 4" wide. Productive and a good variety for home gardeners and "heirloom" market growers. 80 days.

Costoluto Genovese

(7 oz.) Once you've tried Costoluto you'll never try anything else! This Italian heirloom is truly all-purpose. It makes intensely flavored slices with a scalloped shape. People also swear by it as the best flavored roasted, sauced or juiced variety..

Creole

An heirloom or Open pollinated variety developed in Louisiana for hot, humid climates. This variety has a very loyal following. Yields 3-inch, round, firm, red fruit with lots of juice and delicious tomato flavor with good acidity.

Dana's Dusky Rose

80 days, Indeterminate., regular leaf plant with a high yield of 6-14 oz. pink-black fruit with outstanding flavor. This is an outstanding tomato similar in color to Cherokee Purple. Great production

Earl's Faux

This is a potato leaf Heirloom tomato just like Brandywine. It was similar in taste to brandywine, but had good production. The only drawback we found is that it did split after a long dry spell followed by a heavy rain. Fruits picked as they start to flush color and allowed to ripen in the kitchen will prevent the splitting.

Gary 'OSena

75 days, Indeterminate, Potato Leaf, We were blown away with this tasty, beautiful potato leafed tomato. It made some of the most beautiful sliced tomatoes with a rich deep garnet red color we have ever seen. Large 14 to 16 ounce fruit ripen in about 70 to 75 days and have a great rich flavor. Some can even weigh more than a pound.

German Johnson

(12-24 oz.) Old time favorite. Extra-large, rough fruit, pink with yellow shoulders. Mild, low acid and very meaty. 80 days.

Grandma Suzy's Beefsteak

80-85 days, Indeterminate, regular leaf. An old timey flavored heirloom beefsteak tomato originally from Germany with pinkish/red fruit that can get big. Great flavor and great production, makes this a must grow selection.

Granny Cantrell

This meaty beefsteak type tomato is named after Lettie Cantrell, who received seeds from a soldier returning from Germany during World War II, and grew this tomato in the hills of eastern Kentucky. This was her favorite tomato and the only one she grew. Each year she saved the seeds from the largest tomatoes, some of which reached 2 1/2 lbs. Great flavor! This variety was named best tasting tomato of

the year at the 2006 Heirloom Garden Show at the Baker's Creek taste testing contest in Missouri. A Gary Millwood Introduction.

Grub's Mystery Green

This tomato produced an amazing amount of delicious fruit in the medium size range. It did change when ripe from green to a light gold skin color, but when sliced, it was lime green with a zesty, rich flavor.

Herman's Special

This variety was sent to us by Dr. Carolyn Male author of *100 Heirloom Tomatoes for the American Garden*. It was a very productive Red tomato in the 10 to 14 ounce range. Blemish and crack free. Makes a good container plant.

J D's Special C-Tex

75-80 days. All we can say is WOW. This was probably one of the most productive black tomato varieties in our garden. It has great flavor that rivals Cherokee Purple. Many people even say they like it better than Cherokee Purple. We didn't have the cracking associated with Cherokee Purple and the vines stayed healthy and continued to produce all season. We feel that this could possibly push CP out of first place. It's that good.

Japanese Black Trifele

this tremendous variety comes from the former Soviet Union and is also know as Black Truffle. The fruit have a rich, complex flavor and are crack resistant. Harvest while it still has green shoulders for the best flavor. The skin and interior are mahogany colored. The plants produce the 3-4" fruit prolifically. Potato leaf plants. 85 days.

KBX

KBX is the potato leaf form of Kellogg's Breakfast. Almost identical, however we feel the production may be a little higher. Bright orange fruits, medium-large beefsteak type, some ribbing, 8-16 oz, outstanding flavor,

Kellogg's Breakfast

This gold/orange variety was simply wonderful and produced an abundance of large fruit with excellent flavor.

Kentucky Beefsteak

This variety produced a good yield of 0.5-1 lb orange beefsteak fruit, with very good production and flavor.

Large Barred Boar

70-80 days, A Brad Gates creation, Indeterminate., regular leaf, bicolor fruit, 6-14 oz., very flavorful, definitely worth growing,

Mortgage Lifter

Mortgage Lifter was developed in the 1930's by M.C. Byles in Logan, West Virginia to help pay off his home mortgage. He simply crossed German Johnson, Beefsteak, Italian and English varieties and sold the reselected plants. The mortgage was paid for in six years! Large, pink fruits. 80 days.

Orange Fleshed Purple Smudge

Orange Fruit with purplish shoulders depending on the temperatures at maturity.

Paul Robeson

(7-10 oz. fruit) Another outstanding black tomato with unbelievably rich flavor. This is an old Russian variety that was renamed in honor of a civil rights activist. It will be your best producer early in the season and during cool summers. 80 days.

Randy's Brandy

80-85 days, Indeterminate, Potato Leaf. Developed by the late Randy Fleming of Coweta, OK. Randy selected the largest fruit from Brandywine Cherry. The fruit can be about golf ball size and has the same great flavor as Brandywine. The best part is that it is an extremely dependable producer. Brandywine can be very finicky and undependable in warmer climates, but not Randy's Brandy. Randy passed in January of 2014 at the age of 57. He was a dear friend and is deeply missed.

Red Pear

(3/4-1 oz fruit) This wildly productive cherry tomato has stood the test of time. The plants bear right up to the first fall frost. The crack-free fruit has well balanced flavor and is excellent in salads and preserved. Try it with the Yellow Pear for a gourmet combo. 70 days.

Royal Hillbilly

80 days, Indeterminate, Regular leaf. Royal Hillbilly is one of the varieties that have become a mainstay in the garden now. It was developed by the late Darrell

Merrell of Tulsa, OK and is getting rave reviews all across the U.S. It is dependable and produces an abundance of tomatoes on smaller growing vines.

Sioux

Sioux is one absolutely wonderful tomato! Bred at the University of Nebraska, it was the most popular tomato in Oklahoma in the 1940's. Wonderful acid balance, it takes the Southern heat and keeps going. 4-6 oz. well formed fruits are bright scarlet with no cracks or blemishes. This is one of our very favorite reds Excellent Canning Variety. Ind. 75 days.

T. C. Jones

8-12 oz light yellow, some with pink blush or striping at the blossom end. Very juicy, mild and sweet. ☐

Vorlon

80 days, indet., potato leaf plant with a high yield of 8-16 oz purple-black fruit with green shoulders and excellent flavor. A best producer in 2009 and personal favorite.

West Virginia Straw

80-90 days, Indeterminate., potato leaf, large to very large pink beefsteaks with delicious rich flavor and creamy texture, meaty with few seeds. Highly recommended.\

Yellow Pear

(1-2", 3/4-1 oz. fruit) First grown in the late 1800's. Delicious in salads or pickled. Low acid indeterminate. Yellow pear shape. 78 days

Egg Plant

Casper OUT OF STOCK

Even people that don't like eggplant will love Casper. The skin of white eggplants is milder than purple varieties. The flesh has a rich earthy flavor. This French variety is the best of the white eggplants. Pick at 5-6" long and eat skin and all. Productive in all growing areas. 70 days.

Ping Tung Long

This sweet and tender eggplant is from Ping Tung Taiwan. It is adapted to hot and cool climates. The plants set fruit early and continuously. The eggplants are long and cylindrical with light purple skin. Harvest from 4-12" long.. 70 days.
